PROFESSIONAL AV SOLUTIONS
2015 Catalog

A MESSAGE FROM CHIEF

We've had a great year developing new solutions based directly on your feedback. Our customers' willingness to share their experiences and challenges from the field keep us creating new solutions to help with your AV needs.

Exhibit one from this year is the new ConnexSys™ Video Wall Mounting System. Every step of the development process was informed by feedback from customers familiar with video wall mounting solutions and what they like and dislike. Problems that kept repeating were alignment, speed, serviceability and rigidity. The design team used that feedback to determine how to best create a solution that provides features installers love – like channel strut installation, RapidDraw™ release, six points of adjustment in the PowerZone™ and rigidity to keep the placement stable.

Fusion® wall mounts, a hugely popular and appreciated mount, got a refresh through the feedback system of design thinking. Why touch a loved product? Because we always believe we can make it better. The enhanced mounts include better stability, exclusive nesting spacers, teardrop design installation for faster hanging, quick-store cords and simpler cable management options.

Another important project was the refresh of our Kontour™ monitor mounts. To make the series even better, we implemented changes based on customer feedback and added next generation Centris™ extreme tilt, easier fine-tuning, quick-release interfaces, improved bases with tool storage and more configurations and easier upgrade options. The array monitor mounts are also fully launched and ready to create ergonomic applications such as trading desks, call centers, IT, health care, control rooms and more.

Your feedback even helped us improve this catalog. We received a lot of great ideas that guided revisions and testing at every step along the way. For example, you wanted clearer information about accessory compatibility and an easier way to find product categories. We then created accessory pages next to the mounts they serve and clearly tabbed various categories for easier browsing.

Improvement never stops for us but we need to hear from you. Your comments and feedback push us to create better solutions to make your job easier. Thank you for all your insights and willingness to share them with us. For over 35 years we've been working hard to earn your support, and we hope you continue to push us into new levels of success for everyone.

A FOCUS *on* SUSTAINABILITY

At Chief, we embrace our commitment to sustainability and carry this philosophy into our product designs, business practices and facilities.

In recognition of these efforts, Chief received the 2013 Sustainable AV Award from InfoComm International®.

"A lot of companies talk about getting greener, but Milestone has transformed its words into action, and is a shining example of how exceptional companies can focus on improving the world, while at the same time producing world-class products," said David Labuskes, CTS, RCDD, Executive Director and CEO, InfoComm International.

Milestone AV Technologies is a leading designer and manufacturer of branded audiovisual products including flat panel mounting solutions, projector mounts, projection screens, equipment racks and furniture for AV markets. Milestone's innovative products are sold in the commercial markets under the Chief, Da-Lite and Projecta brand names, and in the consumer markets under the Sanus brand name. All brands work together to provide a breadth of product, strength of longevity, and advantage of superior customer service and support.

OUR COMMERCIAL BRANDS

CHIEF

Chief focuses on commercial AV flat panel and projector mounts. Home Theater, Workstation and Custom Display Solutions are also part of the Chief product offering. Known in the industry for high quality mounts with both Custom and Universal options, as well as an extensive accessories line, Chief is focused on professional installers worldwide.

DA-LITE

For over 100 years, Da-Lite has been designing, manufacturing and marketing the most comprehensive line of projection screens in the world. Today, we offer our widest selection ever of proprietary projection screen fabrics and materials in our history.

PROJECTA

As Europe's leading manufacturer of projection screens, Projecta offers top quality products, intelligent mounting systems and, of course, excellent dealer support. Projecta's strength lies in their primary focus on development and production, allowing them to offer advanced and durable projection screens and furniture to the market.

EARN *free* INDUSTRY CREDITS
with the Chief Certified Partner Program

More than 5,000 users have discovered the benefits of Chief's Certified Partner Program, and more than 2,600 of them have become Certified Partners. We love that so many of you continue to find our online training program valuable. The courses are taken at your own pace and cover a wide range of applications for installers and dealers.

We've added new modules like Education II and Digital Signage II, which features the ConnexSys Video Wall Mounting System. More courses are on the way soon.

As of Sept. 1, 2014, the program is worth up to 15.5 CTS RUs, 11.5 CEDIA CEUs and 6 DSEG Credits. We also send welcome gifts at 200 points and Visa gift cards at 600 and 1,200 points.

Visit *certification.chiefmfg.com* to check out the new training opportunities.

INDUSTRY CERTIFICATIONS

Chief is an Emerald Level Certified Audio Visual Solutions Provider (CAVSP) and our staff has achieved a published level of certification to maintain a standard of excellence in the AV industry.

THINSTALL™ TILT MOUNT
FEATURES

ULTRA-LOW PROFILE
At less than the width of a penny, these mounts provide an ultra-thin profile to showcase any flat-screen display.

GLIDE LOCK
Tool-less latching with a sliding flag for fast installation.

CENTRIS LOW-PROFILE TILT
Uses the center of gravity to balance the screen while maintaining a low profile. The display stays set in place until readjusted.

CABLE KICKSTAND
A kickstand makes cable access hands-free while the open wall plate allows for easy electrical placement behind the display.

GLIDE LOCK™ LATCH   CABLE MANAGEMENT

LTTU 37 - 80" ULTRA-LOW PROFILE

CONNEXSYS™ VIDEO WALL SYSTEM
FEATURES

SPEED LEVELING
Mount multiple units to a single strut channel for quick row leveling and centerless lateral shift.

POWERZONE™ ADJUSTMENTS
Six points of tool-free adjustment: height, depth, lateral and tilt are all found in one easy-to-access location. Rigid frame keeps displays where you set them even after extending for service.

RAPIDDRAW™ DISPLAY RELEASE
Cord release system gently and remotely pops any screen out 349 mm from the wall for easy access and service while minimizing aggressive screen pushes. Get an additional 20 degrees of bottom pull-out with an integrated kickstand. Cords can be set to release from any 90 degree angle.

GENEROUS DEPTH ADJUSTMENT
Mount depth from wall can be set between 102 and 186 mm for perfect alignment, accommodating for recess applications and wall imperfections.

LVS1U 42 - 80" LANDSCAPE SYSTEM WITH RAILS

This universal pop-out mount is ideal for large-scale, seamless video walls and recessed applications. Ships with rails for each mount.

Weight Capacity	Dimensions (HxWxD)	Mounting Patterns (WxH)	Tilt	Height Adjust	Total Depth Adjust
68 kg	554 x 903 x 102 mm	200 x 100 - 700 x 400 mm*	+4˚ / -2.5˚	± 25 mm	85 mm

Add CSA110 VESA adapter for compatibility with 800 x 400 mm mounting patterns.
LVS1UP 40 - 80" PORTRAIT SYSTEM WITH RAILS

The portrait version of the LVS1U that ships with rails for each mount.

Weight Capacity	Dimensions (HxWxD)	Mounting Patterns (WxH)	Tilt	Height Adjust	Total Depth Adjust
68 kg	826 x 496 x 104 mm	200 x 100 - 800 x 400 mm	+4˚ / -2.5˚	± 25 mm	85 mm

LVSXU 42 - 80" LANDSCAPE SYSTEM WITHOUT RAILS
Nearly identical to the LVS1U but ships without rails so installers can source strut locally to hang multiple mounts to one rail and reduce installation time.

Weight Capacity	Dimensions (HxWxD)	Mounting Patterns (WxH)	Tilt	Height Adjust	Total Depth Adjust
68 kg	554 x 903 x 102 mm	200 x 100 - 700 x 400 mm*	+4˚ / -2.5˚	± 25 mm	85 mm

Add CSA110 VESA adapter for compatibility with 800 x 400 mm mounting patterns.

TERMS & CONDITIONS

PRICES: Prices are subject to change without notice. Orders are priced at the pricing in effect on the date your purchase order was received. To guarantee pricing for a specific period, customer must obtain a written quotation from Chief. Chief only sells directly to authorized Chief dealers and distributors. Possession of said price book does not constitute an offer to sell.

TERMS AND CONDITIONS: All accounts are due and payable in funds according to the terms of the invoice.

ORDERING: Because of the specific nature of our products and our commitment to entering and shipping orders accurately, we prefer that orders be placed in writing via a purchase order and sent to us via fax (+31 495 580 845) or via e-mail (emea.sales@milestone.com). In urgent situations, we will make every effort to take accurate orders verbally when requested by the customer. Chief cannot guarantee that verbal miscommunication errors will result in the purchaser's favor.

ORDER CONFIRMATION: Customers will receive an E-mail confirmation of their order within 5 hours of receipt of purchase order or at end working day max. within 24 hours. If you do not receive a confirmation of your order, please contact us as it is possible we did not receive your original order. Please review the confirmation to ensure Chief has recorded the details of the transaction as you expected and notify Chief of any discrepancies immediately.

CHANGES TO ORDERS: Because expedited orders begin the production and shipping fulfillment process immediately upon receipt and entry of purchase order, it is frequently not possible to change orders. Other orders will be changed as possible. Contact Customer Service at +31 495 580 840 and they will work through an alternative solution with you. In all cases, the customer is responsible for incremental charges incurred because of the change.

SPECIAL ORDERS: Some of Chief's products can be customized to fit your specific applications. Contact Inside Sales for additional information and pricing. Orders for large quantities of products may also be considered a special order. Any special order or custom product not normally carried in inventory cannot be returned. All electrical products and products with quote pricing are treated as special order items.

PRODUCT CHANGES/DISCONTINUED PRODUCTS: Chief is constantly developing new products and making improvements to existing ones; therefore, we reserve the right to revise or change specifications, designs and model numbers and to discontinue models without notice.

PACKAGING: Where possible and practical, Chief will bulk-pack the items on your order. Please keep in mind that the dimensions and weight of some of our products may preclude bulk-packing. We are not responsible for air-freight or other charges due to multiple single package shipments.

DELIVERY: All promises of delivery are made in good faith and every reasonable effort is made to see that delivery schedules are met. However, if Chief is unable to meet a schedule due to factors beyond our control such as, but not limited to, failure of our suppliers to meet their promised dates or weather related delivery delays, Chief will not be responsible for significant or specific damage. Significant or specific damages may be, but are not limited to, express shipping method charges or installation delay charges. Contact the Chief Inside Sales team for assistance with freight estimates specific to your needs. Delivered prices do not include any type of extraordinary charges such as lift gate requirements, inside delivery charges, residential charges or other nonstandard charges.

FREIGHT AND FREIGHT DAMAGE: Depending on the Inco-term. It is the customer's responsibility to immediately open and inspect all packages and, in the event there is any damage or shortages, file a claim with the freight company. Please contact Chief Customer Service at +31 495 580 840 to get contact information about the specific freight company used and to discuss receiving a replacement product. Keep the damaged product in its original packaging and carton. Unless concealed damage is reported to the Carrier and Chief immediately, there is no recourse. The customer will be charged for any replacement product as the eventual credit will come directly from the carrier via the claim filed.

RETURNS AUTHORIZATION: All merchandise returned to Chief must be returned with prior authorization and a Return Authorization number provided by Customer Service. Chief will provide Return Authorization only for those products purchased directly from Chief. Consumers or dealers purchasing through a third party must request returns through that third party and are subject to that entity's return policies and charges. Defective or product received incorrectly due to an error on Chief's part will be credited to your account in full. In situations where the dealer needs to return merchandise due to a change in its project/equipment or due to ordering incorrectly, a restock charge will apply as follows. Returns are not allowed for merchandise over 90 days old; electrical lift products; special order products, or discontinued merchandise. Products returned that are damaged or missing parts will not be eligible for credit unless they can easily be made saleable. Additional charges for parts and labor may apply.

LIMITED WARRANTY: With the exception of electrical products, Chief warrants its products to be free of defects in material and workmanship for 10 years. All warranties are in effect beginning the date the product was invoiced by Chief. Electrical mechanisms (such as lift products) have a 1-year limited warranty. All warranties are in effect for the original purchaser only. Chief disclaims liability for any modifications, improper installation and/or installations over the specified weight capacity. Chief also disclaims liability for any modifications made to electrical mechanisms, improper installation, incorrect voltage connection and/or installations over the stated weight capacity. All Electrical Mechanisms are intended for indoor use only and failure to comply will void warranty. Chief's sole warranty obligation to the owner of its products is to repair or replace (at Chief's discretion) defective products at no charge to the original purchaser within the warranty period. The purchaser is responsible for returning the product to Chief via prepaid shipping. To the maximum extent permitted by applicable law, Chief disclaims any other warranties, express or implied, including warranties of fitness for a particular purpose and warranties of merchantability. Chief will not be liable for any damages whatsoever arising out of the use or inability to use Chief products, even if Chief has been advised of the possibility of such damages. Chief bears no responsibility for incidental or consequential damages. This includes, but is not limited to, any labor charges for the repair of Chief products performed by someone other than a Chief employee. Because some states and jurisdictions do not allow the exclusion or limitation of liability for consequential or incidental damages, the above limitation may not apply. Chief will not be responsible for damage to Chief products caused by misuse, abuse, failure to properly package the product for return to Chief or for damage caused by carriers during shipment to or from Chief. Any repairs to Chief products required due to misuse, abuse or shipping damage or repairs of defective Chief product outside the warranty period will be performed at the current rates established by Chief for factory service.
